Viré Clessé Vieilles Vignes
Viré Clessé En Brechen

Domaine CORDIER Père & Fils, founded in 1945 in Fuissé, in the south of the Mâconnais, was taken over by Christophe Cordier, grandson of the founder, in 1990. Within a few years, Christophe and his father, Roger Cordier, had created one of the most emblematic domaine in the amazing Pouilly-Fuissé quality success story of recent years. The estate has a vast 35 hectares of vineyards and its winery is equipped with all the technical facilities required to produce high quality wines. But the Cordiers are particularly focused on the vine to ensure they obtain healthy, perfectly ripe grapes, a real guarantee of quality. The domaine's wines are characterized by their beautiful concentration, density and remarkable richness. The Pouilly-Fuissé and the Saint-Véran wines in particular are renowned for their excellent quality.
