Located in Chablis, Domaine TESTUT was created in 1967 by Philippe Testut, who was also behind the creation of "Château Grenouille".

His son Cyril took over the family estate in 1998. The domaine and its vineyards are located in the heart of the Chablis region.

Its vines growing in the Chablis appellation are over 40 years old on average and are even over 50 years for the premiers crus and grands crus. They cover an area of 13 hectares.

Harvesting is carried out by hand for part of the Chablis appellation, and entirely by hand for all the premiers crus and the Grenouille grand cru.
