Vosne Romanée Vieilles Vignes

Vigneron indépendant

Born into a family which had produced several generations of wine growers, Michel MAGNIEN created a large part of the domaine between 1967 and 1991, with the acquisition of numerous plots in the finest climats of the Côte de Nuits. Frédéric Magnien, representing the 5th generation, joined the family domaine situated in Morey-Saint-Denis, in 1993, and is working towards the bottling of the entire production. The domaine now covers 19 hectares with some 20 appellations, including exceptional wines: Clos de la Roche, Clos Saint-Denis, Charmes-Chambertin as well as several Geurey-Chambertin, Morey-Saint-Denis and Chambolle-Musigny Premier Crus. Since the 2013 vintage, all the domaine's wines are certified organic by Ecocert. In addition, all the vines are worked according to biodynamic principles. The aim of biodynamics is to energize and build organic life in the environment in which the vine lives.
